There were some typing mistakes in some equations in our paper. These equations should appear as follows:

for *P. pileus*:

$$\text{Wet Weight (mg)} = 0.682 \times \text{Length (mm)}^{2.522};$$
$$n = 256; r^2 = 0.83,$$

for *A. aurita*:

$$\text{Wet Weight (g)} = 0.12 \times \text{Umbrellar Diameter (cm)}^{2.582},$$
$$n = 243; r^2 = 0.79,$$

and for *M. leidy*:

$$\text{Wet Weight (g)} = -0.249 + \text{Volume (ml)} \times 0.886;$$
$$n = 50; r^2 = 0.96.$$

However, since we had used these equations in the correct way, (not as was printed), the results are correct.

Acknowledgements We sincerely thank Dr Erhan Mutlu for leading us to correct our printing mistakes.
