

Local Project Leader:: Assist.Prof.Dr Bettina Andrea Fach Salihoğlu

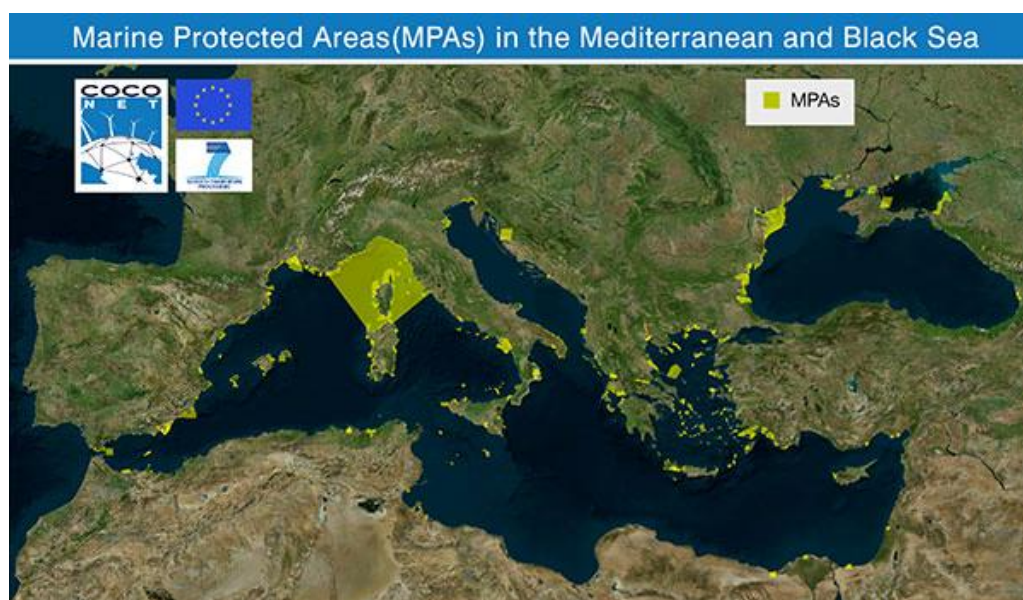

2011-2014

Overall objective:

To create new knowledge to support the development of decision maker's tools for optimizing the management of human activities, within an integrated coastal and marine space system for the Mediterranean and Black Seas

Purpose:

To build up a scientific basis firstly for establishing regional or subregional wide networks of marine protected areas (MPAs) for conservation and better management of marine living resources; and secondly for assessing offshore wind energy potential while evaluating possible synergies and conflicts of use with other marine activities.
